SRC/TY

Dear Sir,

RETURN OF OCCUPATIONS OF FACTORY EMPLOYEES AS
AT OR ABOUT 15TH JUNE, 1941.

During this week Statisticians in all States (at my request and on behalf of the Secretary, Department of Labour and National Service) will despatch to all factories a return to be completed showing number of employees in each occupation. Copy of the return form is enclosed herewith together with a list of those classes of factories from which it will not be required. But every factory proprietor to whom a return form is posted is required to complete and return through the Statistician of his State.

h/with(2) The State Statisticians have willingly undertaken the large amount of additional work involved for them in thus assisting the Commonwealth Department of Labour, and my own officers will work at high pressure in tabulating it.

I should be grateful for anything that you may be able to do to facilitate collection of the returns speedily and accurately, as that will enable time, energy and money that must otherwise be spent in "reminders" to be applied to other national service. In particular it is desired that the form be returned accurately completed before 21st June.

It is believed that the form has been made as simple as is consistent with its purpose and that the instructions and sample return on the back of the form are lucid.

Should you receive inquiries as to the extent of detail to be shown in respect of occupations will you please advise as follows:-

- (i) All skilled occupations and clearly defined semi-skilled and unskilled occupations should be listed individually stating the number of employees in each. (See Sample on back of form).
- (ii) It is not necessary to list each individual type of work done by such employees as "Process Workers", "Machinists", "Machine Operators" etc. These may be grouped as "Process Workers", "Machinists" or "Machine Operators" using these terms where appropriate. Skilled tradesmen fully qualified but engaged on only part of their trade should be included under their appropriate skilled trade designation.
- (iii) Assistants to skilled tradesmen should be classified as assistants showing also the name of the trade in which they are assisting.
- (iv) Labourers and unskilled employees not elsewhere classifiable should be listed as "labourers".

If you desire a copy of the summary tabulation endeavour will be made to supply it at a later date upon request.

Yours faithfully,

S. R. Carver

S. R. CARVER

PLEASE COMPLETE THIS RETURN AND POST IT IN THE ENCLOSED ENVELOPE TO THE SECRETARY,
COMMONWEALTH DEPARTMENT OF LABOUR AND NATIONAL SERVICES, CARE OF GOVERNMENT
STATISTICIAN, BOX 22A, G.P.O., SYDNEY, NEW SOUTH WALES, NOT LATER THAN 21st JUNE, 1941.

INSTRUCTIONS.

Please complete and return the form at once to the address shown on foot thereof.

It is suggested that the required information can be most readily supplied on the basis of the latest pay sheet preceding 15th June, 1941.

It is essential that each employer complete the return exactly in the form requested and in accordance with the instructions which follow:—

1. Include only persons working at or in connexion with the factory, including any who may be temporarily absent from work through illness, holidays, short term military duties or industrial dispute. Do not include employees absent in defence forces for duration of war.
2. Do not state occupations of employees in Groups 1 and 2.
3. List each individual occupation under Group 3, using as far as possible the terms used in awards. Where there are assistants to skilled tradesmen show each separately, e.g., "Boilermakers" to be shown separately from "Boilermakers' Assistants".

Include all women and girls in column (g) and not in any other column.

Where there are Apprentices, Improvers, or Youths either working at or learning a trade in which men are working show the numbers of such Apprentices, Improvers and Youths under their appropriate occupation heading in same line as the men are shown. Do not group Apprentices, Youths, Improvers, &c., into one total but show the numbers of each according to occupation.

Similarly, where "Added Tradesmen" or Women and Girls are working in an occupation in which there are "Adult Men" show such "Added Tradesmen" and Women and Girls under their appropriate heading on the same line.

4. The heading "Added Tradesmen" will apply as a rule only to certain metal trades. The term refers only to "added tradesmen" classified as such under the dilution scheme and includes "elevates" and persons trained under the Commonwealth Technical Training scheme who have been employed after completion of their training. If you employ any trainees under the Commonwealth Scheme for subsidized employment of trainees include them with "Added Tradesmen".
5. Names of Individual Employees should not be shown.
6. Please make sure that the totals for Group 3 shown at the foot of columns (a), (b), (c), (d) and (e) balance correctly with the total of column (f).

7. A sample of Group 3 correctly filled in is shown below:—
